

CleanPack Chemist - Albuquerque, NM

Job ID #: 38839

Functional Area: Chemical Tech & Management

Position Type: Chemists

Experience Required: Not Indicated

Location: NM, Albuquerque

Department:

Education Required: High School Diploma

Clean Harbors is the leading provider of environmental, energy and industrial services throughout North America. The Company serves a diverse customer base, including a majority of the Fortune 500 companies, thousands of smaller private entities and numerous federal, state, provincial and local governmental agencies. Through its Safety-Kleen subsidiary, Clean Harbors also is a premier provider of used oil recycling and re-refining, parts washers and environmental services for the small quantity generator market.

Headquartered in Norwell, Massachusetts, Clean Harbors has waste disposal facilities and service locations throughout the United States and Canada, as well as Mexico and Puerto Rico.

We offer competitive salaries and progressive benefits including health, dental, life insurance, 401K, generous paid time off, tuition reimbursement, paid certifications and licenses, training, and more. We offer a drug free work environment and require a pre-employment drug screen. All Applicants are subject to pre-employment security background checks, and some positions may require pre-employment physical fitness for duty tests.

Our **Field Technicians, Chemists and Senior Chemists** work both indoors and outdoors at plants, labs, and customer sites; and are responsible for assisting with daily labpacks within customer facilities, household hazardous waste (HHW) collections and lab moves with various levels of responsibility. **Transitioning Military**, this is a great opportunity to leverage your skills and training as you return to civilian life. These positions offer the opportunity to grow and advance from entry-level to management at clean Harbors. These positions are known internally as CleanPack technicians, chemists, and leads.
