

Woodrow Wilson Teaching Fellowship

THE WOODROW WILSON
National Fellowship Foundation

Dear Colleague:

You may have heard that the Woodrow Wilson Foundation is currently recruiting candidates to the [Woodrow Wilson Teaching Fellowship](#). Your referrals are extremely helpful—many of the program's most successful Fellows have found us through recommendations from trusted sources like you.

The WW Teaching Fellowship is now accepting applications for this year's first deadline, October 17. Please consider sharing this email with individuals in science, technology, engineering, and math who you think would be strong candidates. This prestigious Fellowship provides top applicants with unparalleled opportunities: a generous stipend (\$30,000); admission into a competitive master's degree program; extensive clinical practice; ongoing mentoring; teacher certification; and more. Those interested in learning more about the Fellowship can visit <http://woodrow.org/STEM> or can [schedule a call](#) with our admissions counselor, Neema Ndiba.

Your willingness to pass this information along to gifted, energetic candidates who have strong STEM backgrounds can ultimately change the lives of young people who need great teachers. Thank you, in advance, for encouraging the best people you can think of to take a look at this Fellowship.

All best,

Jose Ochoa

Director, Woodrow Wilson Teaching Fellowships

*Inspire the next generation of scientists and mathematicians with the
Woodrow Wilson Teaching Fellowship.*
