

### First-time Transfer Students Graduation Rates by Gender and Ethnicity

This table gives the number of first-time transfer students earning a BA from NMHU within 6-years, the number earning BA from another institution within six years, and the total number earning a BA from any institution as of the summer of 2011. At the bottom of each chart are the percentage of each cohort that graduated from NMHU within six years and the percentage of each cohort that has earned a BA anywhere as of the summer of 2011. This chart will be updated each fall, so while the six-year graduation rates will not change, the “anytime, anywhere” rates will increase. Cohorts include all first-time transfer students enrolled in the fall semesters, not just full-time degree-seeking students.
