# **IPEDS**<sup>2024-25</sup> Data Collection System

IPEDS HELP DESK (877) 225-2568 | ipedshelp@rti.org OMB NO. 1850-0582 v.33 : Approval Expires 8/31/2027 User ID: P1878971

12-month Enrollment 2024-25

#### Institution: New Mexico Highlands University (187897)

Overview

#### 12-month Enrollment Overview

The 12-month Enrollment survey component collects unduplicated student enrollment counts and instructional activity data for an entire 12-month period. Using the instructional activity data reported, a full-time equivalent (FTE) student enrollment at the undergraduate and graduate level is estimated (4-year institutions only). Institutions with Doctor's - professional practice students will also report the FTE enrollment of those students (4-year institutions only). NCES uses the FTE enrollment to produce indicators such as expenses by function per FTE as reported in the IPEDS Data Feedback Report.

#### Data Reporting Reminder:

- · All institutions must use the July 1 June 30 reporting period.
- · Report data to accurately reflect the time period corresponding with the IPEDS survey component, even if such reporting is seemingly inconsistent with prior-year reporting.

#### **Changes in reporting**

- The following changes were implemented for the 2024-25 data collection period:
  - Added screening question to indicate whether the institution enrolled high school students in college courses for credit during the 12-month reporting period. Note: This
    screening question originally appeared on the Institutional Characteristics Header component when first added in the 2023–24 data collection. This item was added to the 12month (E12) component in the 2024–25 data collection to better align the timing of this screening question to the reporting of the enrollment counts. This change was prompted
    by feedback from the IPEDS Help Desk and IPEDS data reporters that separating the screening question and enrollment count reporting on two different components led to
    confusion and timing misalignment.
  - Revised the Gender Unknown or Another Gender than Provided Categories screen for clarity.
  - Removed mention of "non-first-time" on survey screens and instructions when discussing "transfer-in" student enrollment status to clarify the distinction between these two
    terms. This change was prompted by feedback from the IPEDS data reporters and data users that IPEDS survey materials conflated the concepts of "transfer-in" and "non-firsttime," which led to misunderstanding in interpretation. This change will clearly separate these two concepts in the IPEDS survey materials to improve clarity and understanding of
    these terms.
  - Added a new FAQ to better clarify the relationship between "transfer-in" enrollment status on the Fall Enrollment (EF) and 12-month Enrollment (E12) components and the "non-first-time" cohort on the Outcome Measures (OM) component. This change was prompted by feedback from the IPEDS data reporters and data users that the IPEDS survey materials conflated the concepts of "transfer-in" and "non-first-time," which led to misunderstanding in interpretation. This change will clearly separate these two concepts in IPEDS survey materials to improve clarity and understanding of these terms.
  - Revised definition for "Transfer-in student" Glossary term to improve clarity. This change was prompted by feedback from the IPEDS data reporters and data users that the current definition for "Transfer-in student" led to misunderstanding in interpretation. This change will clarify this term for greater understanding among the IPEDS audiences.
  - Revised definition for "Non-first-time student (undergraduate)" Glossary term to improve clarity. This change was prompted by feedback from the IPEDS data reporters and data users that the current definition for "Non-first-time student (undergraduate)" led to misunderstanding in interpretation. This change will clarify this term for greater understanding among the IPEDS audiences.
  - Revised definition for "Continuing/Returning student (undergraduate)" Glossary term to improve clarity. This change was prompted by feedback from the IPEDS data reporters
    and data users that the current definition for "Continuing/Returning student (undergraduate)" led to misunderstanding in interpretation. This change will clarify this term for
    greater understanding among the IPEDS audiences.

#### Resources:

- To download the survey materials for this component: <u>Survey Materials</u>
- To access your prior year data submission for this component: Reported Data

If you have questions about completing this survey, please contact the IPEDS Help Desk at 1-877-225-2568.

### 12-month Enrollment Screening Questions

#### 1. Which instructional activity units will you use to report <u>undergraduate</u> instructional activity?

- · Undergraduate instructional activity data in Part B may be reported in units of clock hours or credit hours.
- · Please note that any graduate level instructional activity must be reported in credit hours. (4-year institutions only)
  - O Clock hours
  - Oredit hours
  - O Both clock and credit hours (some undergraduate programs measured in clock hours and some measured in credit hours)

()You may use the box below to provide additional context for the data you have reported above. Context notes will be posted on the College Navigator website. Therefore, you should write all context notes using proper grammar (e.g., complete sentences with punctuation) and common language that can be easily understood by students and parents (e.g., spell out acronyms).

#### 2. Did your institution enroll high school students in college courses for credit during the 12-month Enrollment (E12) reporting period of July 1, 2023 - June 30, 2024?

If you answer **Yes** to this question, you will be able to report the unduplicated count of high school students enrolled in college courses for credit on Part C of the 12-month Enrollment (E12) survey component.

#### Yes.

- Within a dual enrollment program.
- Outside a dual enrollment program.

O No

### Note:

Within a dual enrollment program is defined as within an organized system with special guidelines that allows high school students to take college-level courses. The guidelines might have to do with entrance or eligibility requirements, funding, limits on course taking, etc.

Outside a dual enrollment program is defined as high school students who simply enroll in credit courses through your institution, and are treated as regularly enrolled college students.

# Part A - Unduplicated Count for Full-time Undergraduate Students

# 12-month Unduplicated Count by Race/Ethnicity and Gender - Full-time Undergraduate Students

July 1, 2023 - June 30, 2024

Reporting Reminders:

- The 12-month unduplicated count must be equal or greater than the corresponding prior year fall enrollment.
- Report Hispanic/Latino individuals of any race as Hispanic/Latino
- Report race for non-Hispanic/Latino individuals only
- Even though Teacher Preparation certificate programs may require a bachelor's degree for admission, they are considered subbaccalaureate undergraduate programs, and students in these programs are undergraduate students.

### Part A - Gender Unknown or Another Gender than Provided Categories

#### 12-month Unduplicated Count by Gender Unknown or Another Gender than Provided Categories

Reporting Reminders:

- The purpose of this supplemental section is to determine whether institutions are able to report the number of students for whom gender is unknown and the number of students for whom gender does not align with the 'Men' and 'Women' categories. Note that these students must still be allocated into the 'Men' and 'Women' categories in all other sections of the survey component.
- Institutions should not ask students that do not select a binary gender to allocate themselves to a binary gender category; it is up to the institution to allocate unknown students and students that indicate another gender into the binary categories throughout the forms where required. One method commonly used by institutions is to allocate these students to the binary categories required in other parts of the form using the proportion of men to women reported.
- The 'gender unknown' category is to report students for whom the institution does not know a gender.

#### Is your institution able to report another gender for the July 1, 2023 - June 30, 2024 reporting period?

If you indicate 'No, my institution is not able to report another gender,' leave the cells in the rows for 'Another gender' blank (i.e., do not report 0). If you indicate 'No, some cells will have a value of less than 5 students,' your institution collects data on another gender, but some cells have a value of less than 5 students, do not report the data and leave the cells in the rows for 'Another gender' blank. If you indicate 'Yes', but no students identified as another gender, please enter '0'.

Undergraduate students:

- No, my institution is not able to report another gender (do not report)
- O No, some cells will have a value of less than 5 students (do not report)
- O Yes

#### Graduate students:

- No, my institution is not able to report another gender (do not report)
- O No, some cells will have a value of less than 5 students (do not report)
- O Yes

Of the total students reported, how many students did you allocate to a binary gender category (Men/Women) because their gender was unknown or another gender than the provided categories?

		Number of students			
		Undergraduate students		Graduate students	
		Current Year	Prior year	Current Year	Prior year
Grand	total	2,095	2,004	1,470	1,482
	Gender unknown (i.e., gender information is not known or not collected).	0	0	0	0
	Another gender (i.e., gender information is known but does not fall into either of the mutually exclusive binary categories provided [Men/Women]).		0		0
	Total of Gender unknown + Another gender	0	0	0	0
	Total of Students for whom gender is known and falls into one of the mutually exclusive binary categories provided [Men/Women]	2,095	2,004	1,470	1,482

()You may use the box below to provide additional context for the data you have reported above. Context notes will be posted on the College Navigator website. Therefore, you should write all context notes using proper grammar (e.g., complete sentences with punctuation) and common language that can be easily understood by students and parents (e.g., spell out acronyms).

# Institution: New Mexico Highlands University (187897)

# Part A - 12-month Enrollment by Distance Education Status

# 12-month Unduplicated Count - Distance Education Status

July 1, 2023 - June 30, 2024

	Undergr	Graduate Students	
	Degree/certificate-seeking	Non-degree/non-certificate-seeking	Gladdale Students
Students enrolled exclusively in distance education courses	519	27	620
Students enrolled in at least one but not all distance education courses	1,258	61	707
Students not enrolled in any distance education courses	100	130	143
Total (Carried forward from part A)	1,877	218	1,470

You may use the box below to provide additional context for the data you have reported above. Context notes will be posted on the College Navigator website. Therefore, you should
 write all context notes using proper grammar (e.g., complete sentences with punctuation) and common language that can be easily understood by students and parents (e.g., spell out
 acronyms).

#### Part B - Instructional Activity

#### 12-month Instructional Activity

July 1, 2023 - June 30, 2024

#### Instructional Activity Reporting Reminder:

- Instructional activity is used to <u>calculate</u> an IPEDS FTE based on the institution's reported calendar system.
- Graduate credit hour activity should not include any doctor's professional practice activity, the total of those students' FTE is entered separately instead.
- FTE Reporting Reminder:
  - Institutions need not report their own calculations of undergraduate or graduate FTE unless IPEDS FTE <u>calculations</u> would be misleading for comparison purposes among all IPEDS reporting institutions.

#### Instructional Activity

	2023-24 total activity	Prior year data
Undergraduate level:		
Credit hour activity	39,391	38,512
Graduate level:		
Credit hour activity	21,026	22,218

#### Full-Time Equivalent (FTE) of Students

Calendar system (as reported on the prior year IC survey component):	Semester

If the IPEDS <u>calculated</u> FTE estimates below are not reasonable, **AND** you have reported the correct instructional activity hours above, enter your best FTE estimate in the "Institution reported FTE" column below and save the page. This option should be used **ONLY** if the calculated estimate is not reasonable for your institution and IPEDS comparisons.

Please provide your best estimate of undergraduate and graduate FTE for the 12-month reporting period only if the calculated FTE estimate below is not reasonable for IPEDS comparison purposes. Please provide an explanation in the context box if the option is used due to Coronavirus Pandemic.

	Calculated FTE 2023-24	Institution reported FTE 2023-24	Prior year FTE 2022-23
Undergraduate student FTE	1,313	1,313	1,284
Graduate student FTE	876	876	926
Total FTE students	2,189	2,189	2,210

Context notes will be posted on the College Navigator website. Therefore, you should write all context notes using proper grammar (e.g., complete sentences with punctuation) and
 common language that can be easily understood by students and parents (e.g., spell out acronyms).

# Institution: New Mexico Highlands University (187897) Part C – Unduplicated Count of Dual Enrolled Students

# 12-month Unduplicated Count of Dual Enrolled Students

July 1, 2023 – June 30, 2024

Reporting Reminders:

- The number of high school students enrolled in college courses for credit was reported in Part A as part of the non-degree/non-certificate-seeking unduplicated enrollment.
  - The number of high school students enrolled in college courses for credit reported in Part C will have some duplication with the non-degree/non-certificate-seeking enrollment students reported in Part A.
  - The number of high school students enrolled in college courses for credit reported in Part C should be less than the number of non-degree/non-certificate-seeking students reported in Part A unless all these students at your institution are high school students enrolled in college courses for credit.
- Report Hispanic/Latino individuals of any race as Hispanic/Latino
- Report race for non-Hispanic/Latino individuals only

In Part A, your institution reported the following number of students	218
in the non-degree/non-certificate-seeking unduplicated headcount.	210

### Summary

## 12-Month Enrollment Component Summary

The purpose of this summary is to provide you an opportunity to view some of the data that, when accepted through the IPEDS quality control process, will appear on the <u>College</u> <u>Navigator</u> website and/or your institution's Data Feedback Report (DFR). In addition, all data reported in IPEDS survey components become publicly available through the <u>IPEDS Use the</u> <u>Data</u> and appear as aggregated statistics in various Department of Education reports. <u>College Navigator</u> is updated approximately three months after the data collection period closes and DFRs will be available through the <u>IPEDS Use the Data</u> and sent to your institution's CEO at the end of 2025.

Please review your data for accuracy. If you have questions about the data displayed below or after reviewing the data reported on the survey screens, please contact the IPEDS Help Desk at: 1-877-225-2568 or <u>ipedshelp@rti.org</u>.
