Optional Attendees: Aragon, Ruben F (rubenaragon@nmhu.edu)

Importance: High

Good morning,

I hope this email finds each and every one of you well. At our last co-curricular assessment meeting we went over the assessment process and expectations. As part of that, we decided that by our next meeting on **February 10, 2017 at 10:00 am** we would all be prepared with a draft of our student learning outcomes in order to get feedback and support for developing our full plan. As promised, I am attaching the handbook in digital format along with the template in word format. I am also working to set up the meeting via zoom. Please let me know if there are any questions.

All my best,
Kim
