Program Mission:

The general mission of the Department of Media Arts & Technology is to educate students in the technical skills, theoretical underpinnings, and the sociocultural context for the disciplines represented by the academic programs. MA&T seeks to inspire students to work creatively and collaboratively towards the goal of contributing to our own communities. Collaboration, experimentation and a willingness to push the boundaries of where art and technology intersect are the hallmarks of MA&T.

In its collaborative enterprises, MA&T provides opportunities for students to work closely with faculty and staff in its academic courses. Community organizations and cultural institutions join the department for many projects and activities. MA&T aims to incorporate elements from northern New Mexico's history of arts and innovation, and the rich heritage of Hispanic and Native American cultures that are distinctive to the state of New Mexico. Ultimately, MA&T aims to prepare its students for an active professional life in each discipline through the knowledge, creativity, teaching skills, and dedication of its faculty and staff, showing excellence in teaching, experimentation, scholarship, and professional applications.
