| Academic Enrichment and Retention Specialist (full time) | \$ 30,804    | TOP: FY18 Request - approved, reclassific ation of Acad Support position, would have saved 3286 in FY17 | all                  | all  | Recurring               | Met              | Data analysis, expansion of program beyond first semester, supervission of peer mentor program, student employees, and support for expanded services to continuing students | NMHU is losing 50% more FF freshmen between the 2nd and 3rd semesters than we should be when compared to national attrition patterns, in addition to a lower than average retention rate between the 1st and 2nd semesters. Continuing FYE into the 2nd semester and the 2nd year is intended to address this ongoing attrition issue by increasing academic integration and student success through enriching experiences and mentoring. As the staffing for academic enrichment programs stands currently, the Director cannot attend properly to overseeing the number of students and necessary student employees as well as provide sufficient leadership in retention and completion efforts. Not including retention efforts, the FYE program has increased by 146% in students served between FY 15 and FY 17, and is projected to have increased by approximately 225% between FY 15 and FY 18. The number of student employees required to properly attend to the number of students involved has increased by 1500% between FY 15 and FY 17. |  |
