

At NMHU, co-curricular activities are defined as out-of-class experiences that complement and extend the formal learning experience of a course or academic program. Co-curricular activities develop a student's social, intellectual, cultural, democratic, civic, and aesthetic domains. They are supervised and/or financed by the institution and facilitate the attainment of NMHU's four essential traits (or student learning outcomes). These experiences are voluntary, ungraded, and non-credited, although they may be compensated through student employment.

Four identified traits/student learning outcomes that the NMHU community of faculty, students and staff identified that our graduates are expected to display:

- Mastery of content knowledge and skills
- Effective communication skills
- Critical and reflective thinking skills
- Effective use of technology

Program Name: Language Learning Center
