Human Performance and Sport Graduate
(Instructional Degree Program)

M.A.
(Degree Level)

Program Mission:

The mission of the Department of Exercise and Sport Sciences is to improve the quality of life related to the many aspects of human movement. We concentrate on a full spectrum of human potential, from young to old, fit to unfit, recreational to highly athletic, healthy to diseased, and able-bodied to disabled. Our programs are related to the study of exercise physiology, health, teaching, athletic injuries, recreation, sports administration, and coaching.

Student Learning Outcome 1:

Demonstrate a mastery of content knowledge in their appropriate discipline.

NMHU Traits Specifically Linked to Student Learning Outcome 1

Mastery of Content Knowledge and Skills

First Means of Assessment for Outcome 1:

A majority of graduating students receive a GPA of 3.5 or above in the HPS graduate coursework. While GPA is not our typical “means” for assessing our program outcomes, we use GPA in this instance as a benchmark for our own internal assessments of students’ overall exit performance from our program. This program includes emphasis areas in health education, health promotion and wellness, pre-professional health, and pre-professional athletic training.

Summary of data:

Number of Students Meeting Criterion:	1	Number of Students Not Meeting Criterion:	0
