

**2022 Student Satisfaction Survey Summary**  
**Office of Institutional Effectiveness and Research**

The Student Satisfaction Survey is administered to graduating students every year to elicit feedback regarding their experience at the University. In the spring of 2022, the survey was administered online to students graduating or planning to graduate in fall 2021, spring 2022, or summer 2022.

We received 44 completed surveys, by 35 females (79.5%), 8 males (18.18%), and 1 other (2.27%). Zero students skipped the gender question. Respondents included 18 undergraduate students (40.91%) and 26 graduate students (59.09%). Zero students did not indicate if they were an undergraduate or graduate student. We do want to note, this year’s results were impacted by the Hermit Peak and Calf Canyon fires.

Of those that responded, the ethnicity of the students is reported below.

<b>Race/Ethnicity</b>	<b>#</b>	<b>%</b>
Black or African American	1	2.3%
American Indian or Alaskan Native	5	11.4%
Asian	3	6.8%
